

Barcelona 04.03. - 15.03.2024

Training course:
We are special: Inclusion, Support and successful Strategies
for Teaching students with Special Needs
In Every Classroom

Dorota Komar

Training course has been organised within the project „Transnational educational mobility of pupils and school education staff”, co – funded by the European Union through the European Social Fund Plus, European Social Fund Plus for Social Development

By taking part in this course, I could enrich my skills, learn new ideas and see diverse ways of solving problem I meet in my work.

The knowledge and skills acquired during the courses will help me respond more effectively to the needs of my students and solve the problems I encounter.

The stay in Barcelona will not only allow for professional development, we could also get acquainted with the culture, history and beauty of this extraordinary City and its immediate surroundings.

Barcelonetta –is our first impressions in Barcelona.
It couldn't have been better :)

Barcelona invites you to wander through its charming streets behind the arches and squares.

After reading the novel „Barcelona Cathedral” by Ildefons Falcones
I had to see the Santa Maria del Mar Cathedral
with my own eyes.

The city is permeated with the spirit of Antonio Gaudi –
- Barcelonas most famous architect .

Barcelona is surrounded by hills, so walking around this city offers Unforgettable views.

Tibidabo and Montjuic

A visit to the town of Tossa de Mar reveals the charms of the Costa Brava coast.

We came back full of new knowledge, ideas, impressions.
To change the world for the better,
you have to start changing with yourself :)
